DEMOCRATS AND REPUBLICANS

DIFFER AS TO THE MERITS OF THE RECALL, BUT

There is no difference of opinion regarding the

SAMSON WINDMILL

We wish to call particular attention to its great distinguishing feature—

ITS DOUBLE GEARING

This gearing consists of two sets of gearings, or two pinions and two spur gears engaging each other. This makes two trains to transmit the power of the wheel to the pump. The advantages of this new principle over the construction of the ordinary backgeared windmill are manifest.

SEE US FOR THE SAMSON

Pratt-Gilbert Company
